

ANDRES MARTE

Queens, New York | mandres1994@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with strong full-stack development skills and UX/UI design expertise. Proficient in JavaScript (ES6+), React, Node.js, Python, and TypeScript with hands-on experience building production-ready web applications. Demonstrated ability to design and implement user-centric solutions using modern development practices including RESTful APIs, responsive design, and Agile methodologies. Passionate about writing clean, maintainable code and solving complex technical challenges.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, TypeScript, HTML5, CSS3, Swift, C#, Dart

Frameworks & Libraries: React, Node.js, Express.js, Flutter, Bootstrap, Material-UI, TailwindCSS

Tools & Technologies: Git/GitHub, VS Code, Figma, Adobe Creative Suite, REST APIs, JSON, MongoDB, MySQL

Development Practices: Agile/Scrum, TDD, CI/CD, Responsive Web Design, Cross-Browser Compatibility, Version Control

Additional: UX/UI Design, Usability Testing, Wireframing, Prototyping, Design Systems, Web Accessibility (WCAG)

TECHNICAL PROJECTS

Therapick - Mental Health Therapist Finder | *React, Node.js, Express, MongoDB*

github.com/visuxlize/therapick-app

- Built a full-stack web application that matches users with mental health professionals based on mood and symptoms, reducing search friction by 70%
- Implemented RESTful API with Node.js and Express for therapist data management and user authentication
- Designed responsive React interface with mood tracking, appointment scheduling, and symptom monitoring features
- Conducted user research and usability testing to validate UX design decisions and iterate on user flows

OSTO(ME) - Pediatric Mood Tracking Application | *Flutter, Dart, Firebase*

github.com/visuxlize/ostome-app

- Developed cross-platform mobile application using Flutter to help children track emotions and communicate with healthcare providers
- Implemented calendar integration and data visualization features for tracking symptoms, moods, and appointments
- Created child-friendly UI/UX with colorful, intuitive design based on user research with target demographic

Personal Portfolio Website | *TypeScript, React, Next.js, TailwindCSS*

visuxlize.github.io/portfolio

- Built responsive portfolio website using TypeScript and React to showcase projects and technical capabilities
- Implemented modern UI with TailwindCSS featuring smooth animations, dark mode toggle, and mobile-first design
- Optimized performance and SEO, achieving 95+ Lighthouse scores across all categories

New Castle Metal Website Redesign | *JavaScript, HTML5, CSS3, Responsive Design*

github.com/visuxlize/NCMRedesign

- Redesigned company website with modern responsive layout improving mobile usability by 60%
- Implemented clean, accessible UI using semantic HTML5 and CSS3 with cross-browser compatibility

- Optimized page load times by 40% through code minification and image optimization techniques

PROFESSIONAL EXPERIENCE

Freelance UX/UI Designer & Full-Stack Developer | *Mar 2020 - Present*

- Develop responsive web applications and mobile apps using React, JavaScript, HTML5, CSS3, and Flutter
- Build RESTful APIs and backend services using Node.js and Express with database integration
- Create brand identities, interactive prototypes, and comprehensive design systems using Figma and Adobe Creative Suite
- Perform cross-browser testing, debugging, and performance optimization to ensure seamless user experiences
- Collaborate with clients using Agile methodologies to deliver projects on time and within scope

Framebridge | Store Manager & Technical Collaborator | *Aug 2020 - Jun 2024*

- Collaborated with engineering teams to develop and test custom Shopify retail tools and POS systems
- Designed UI workflows for Point-of-Sale applications that improved checkout efficiency by 25%
- Conducted cross-device testing (desktop, tablet, mobile) ensuring UI consistency and functionality
- Created design system and component library for e-commerce website relaunch, increasing user engagement

New Castle Metal | Branch Manager | *2018 - 2020*

- Implemented Monday.com project management platform to automate workflows and improve team productivity
- Developed quality control procedures using SCRUM principles, improving operational efficiency by 30%
- Managed end-to-end projects ensuring adherence to timelines, specifications, and budgets

EDUCATION

DeVry University | Bachelor of Science (BS), Software Development

DeVry University | Associate of Science (AS), Information Technology and Networking

MIT | Design and Applied Arts Certificate

CUNY City Tech | BTech Architecture

CERTIFICATIONS

- Google UX Design Professional Certificate
- MIT UX/UI Design Certification
- CompTIA A+ Certified
- Apple Certified Trainer
